

GREAT FUN & EDUCATIONAL COLOR MY WORLDS COLORING TABLETS

Instructions:

Fill the included spray bottle(s) almost to top with water and select the color tablet of your choice. Simply drop the tablet into your pre-filled spray bottle and watch the color tablet fizz into action and create vibrant color.

For a deeper color, simply add a second color tablet of the same color. If you want to get creative and change your existing color or create your own color, simply add another color tablet and watch your newly created color come to life.

Creating Colors:

Starting with the primary color tablets of Blue, Red & Yellow your child can learn to create secondary colors of Green, Purple and Orange by combining different color tablets.
